RE: AMP Annual Priorities List 2017-18

Dear Campus Leaders,

UC AMP (Administrative Management Professionals) - formerly ABOG - is a systemwide organization that has existed on all UC campuses for 45 years and at UCSC consists of senior business officers from academic departments and research organizations. Its mission is to provide a forum for discussion, promote communication, study common concerns and solutions in areas relating to the operations and administrative functions of academic departments, and provide an effective and informed advisory resource to central administration and campus units. Curriculum analysts, academic program analysts, and operations managers are represented as AMP Members-at-Large. We have a very collaborative relationship with key campus leaders, who are invited to our monthly meetings periodically to provide updates and engage in dialogue on various matters, and AMP members serve on campus committees. AMP's mission statement can be found at the campus AMP website: <http://amp.ucsc.edu/>

Each year, we solicit input from our members regarding issues that are of concern to them and their staff and prepare a priorities memo that we submit for your consideration and support. Our intent is to identify areas that would benefit from campus attention to increase functionality and efficiency of campus operations and systems. Our detailed list of top priorities for 2017-18 is attached.

We value former Campus Provost and Executive Vice Chancellor Alison Galloway's encouragement and support to ABOG/UC AMP, in particular for her support of robust curriculum management software and ongoing budgetary support for professional development activities. We look forward to an equally productive relationship with Campus Provost and Executive Vice Chancellor Marlene Tromp.

Thank you for your attention to the topics we bring forward for your consideration and for the opportunity to work together to address problems and find solutions aimed at improving the working and learning environment on our campus and supporting continued excellence at UCSC.

Sincerely,

AMP Executive Board
